[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO JUNE 10.

BY ATLANTIC CABLE.

Supplementary Elections in France.

PARIS, June 9.—A decree ordering supplementary elections to fill vacant seats in the Assembly is expected to-morrow.

The *Gazette de France* says the Princes have promised not to take their seats as deputies during the existence of the present Assembly, and will not allow their sons to become candidates. Forcade Torgnetti will stand for the Assembly in the Department of Loire et Garonne. His election will probably not be contested. Rouher Guerronier and Hinselmann are also spoken of as candidates. It is almost certain that Prince Napoleon will run for the Assembly from Corsica.

The *Opinion Nationale*, commenting on the action of the Assembly, warns the country that it is sliding down an inclined plane into monarchy. Other journals approve yesterday's proceedings. *La France* compares the speech of Thiers to the proclamation of Washington.

German forces have commenced the evacuation of the Department of the Lower Seine.

It is expected that the state of seige will cease in Paris on Monday.

The British Parliament.

LONDON, June 9.—Official statements were made in both houses of Parliament to day of the circumstances of the imprisonment and killing of certain British subjects in Paris during the recent insurrection.

The House of Commons has passed the Westmeath bill, enlarging the power of the Government for the suppression of violence in Ireland.

General News from France.

LONDON, June 10.—Paris papers continue to uphold Thiers, affirming that monarchy is a synonym of revolution. They think elections may possibly change the majority in the Assembly.

VERSAILLES, June 10.—Pyatt is in Paris.

The committee on the reorganization of the army reports in favor of obligatory service.

Prince de Joinville and Aumale have visited Thiers, Grevy, Cissey and other Ministers, and were received. Thiers returned the visit.

The Orleanists are preparing a banquet to Aumale.

The seat of Government will be shortly removed to Paris.

The arrival of Chambord at Boulogne is contradicted.

The official journal announces that elections in 113 districts will be held on the 23 July.

The *Journal* assures the people that deposits in the Bank of France are uninjured.

Mail Advices from Paris.

NEW YORK, June 10.—Mail advices by the steamer *Darien* state that the Archbishop of Paris died with the serene courage of a martyr. In answer to the insults of his executioners he said: "Do not profane the word 'liberty'; it is to us alone it belongs, for we die for liberty and faith." Dombrowski died in his bedroom at the Hotel de Ville. He received rifle shots while at the barricade of Rue d'Onore, and was transferred from thence to the Hotel de Ville, where he died of his wounds. Delascluse was killed at the barricade of Chateau d'Eau. His face was much disfigured by a portion of the burning wall which had fallen on it.

EASTERN STATES.

New Hampshire.

CONCORD, June 10.—Weston is elected Governor.

Honors to Prof. Morse.

NEW YORK, June 10.—Most complete arrangements are made by the telegraph companies to honor Prof. Morse to-day, and as the weather is beautiful the demonstration will undoubtedly be of an imposing character.

The Flood in New Orleans.

NEW ORLEANS, June 9.—The overflow is fifteen inches below high water mark. The water has fallen three inches in the last twenty-four hours. Twelve steam fire engines are throwing out water to-day, but a heavy rain, with a gale, prevented a further decline. Several additional pumps of great capacity will be at work to-morrow.

The Military Academy at West Point.

WEST POINT, June 9.—The examination of the graduating class of cadets was concluded to-day. All were successful in passing the ordeal.

Tornado at Iowa City.

CHICAGO, June 9.—There was a terrible tornado in Iowa City to-day; houses were unroofed and partly demolished; crops of fruit trees were badly damaged, and a man was reported killed. The extent of the damage cannot be ascertained at present.

Total Loss of a Vessel.

NEW YORK, June 9.—News has been received of the total loss of the steamer *Wolf*, with a cargo of 17,000 seal skins, by collision with an iceberg, the crew having barely time to leap on the ice before she sunk. The steamer *Lion* saved the crew.

WASHINGTON CITY.

The Strike Ended.

WASHINGTON, June 9.—The strike of the colored laborers has ended. There are no signs of further trouble.

Naval Matters.

WASHINGTON, June 9.—Rear Admiral Goldsborough, in command of the Washington Navy Yard, will be placed on the retired list on the 1st of July, but will probably remain in command of the yard, as an order of the Secretary issued about a year ago, forbidding retired officers from holding active commands, has been rescinded. Rear Admiral Gordon will retire on the 18th inst. when Commodore Allen, Chief of the Bureau of Navigation, will be promoted to the rank of Rear Admiral to fill the vacancy. The retirement of Admiral Goldsborough, on the 1st proximo, promotes Commodore Taylor to the rank of Rear Admiral.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, June 10.—The schooners *General Harney* and *Wild Gazelle*, which recently arrived from the north, brought a considerable quantity of cannel coal, which was found on the mainland and on the Aleutian Islands, within one hundred yards of an excellent harbor. Measures are being taken to incorporate a large company here to work the Aleutian deposits.

Senator Casserly has telegraphed declining the public reception tendered this evening.

Mrs. Fair's death warrant is now in the hands of the Sheriff, duly signed.

A Chinese Young Men's Christian Association, numbering forty members, has been organized here.

The monument of Morse, the inventor of the telegraph, was unveiled at New York to day with appropriate ceremonies. Congratulatory dispatches are being received and sent from and to all the principal offices in America.

The following messages and answers were received and forwarded by James W. Urquhart, manager of the Western Union Telegraph Company, over the wires this evening, on the completion of the Morse monument:

NEW YORK, June 10.—Greeting to all telegraphers throughout the world—peace on earth and good will to men. God bless you all.

S. F. B. MORSE.

To this the following reply was sent to this office:

SAN FRANCISCO, June 10.—Professor S. F. B. Morse, New York: The undersigned, for himself and the telegraphers on the Pacific coast, unite in the general congratulations on this memorable day; may you live to see your work completed, and when time and space have been annihilated, receive in person the first message, the beginning of which, passing through earth, air and sea, shall have circled the globe before the end shall have been written.

JAMES GAMBLE,
General Sup't Pacific Division.

The following were also sent to Professor S. F. B. Morse:

It is with sincere pleasure that I add my congratulations to those of the thousands who this day join in honoring the man to whom the world owes so much.

FRANK BELL,
District Sup't Pacific Division.

PORTLAND, Oregon, June 10.—Professor S. F. B. Morse, New York: Space is annihilated. The far Northwest salutes Franklin, who discovered, for Morse to utilize. Generation after generation will thankfully cherish the memory of their benefactor.

O. P. S. PLUMMER,
District Sup't Pacific Division.

VICTORIA, V. I., June 10.—Professor S. F. B. Morse, New York: On this occasion of honor to the distinguished services which you have rendered to science and mankind, I gladly avail myself of the opportunity afforded me to render my tribute of respect and admiration.

A. MUSGROVE,
Governor of British Columbia.

VICTORIA, V. I., June 10.—Professor S. F. B. Morse, New York: Job 38th chapter, 35th verse:

Can'st thou send lightnings and bid them from afar
To carry back the message—"Here we are"?
Thus from the lightning cloud Jehovah spake,
And Job, thus questioned, dared not answer make.
The years by thousands since have rolled their course,
Adown the ages till the days of Morse;
Who hears the echo from the vaulted sky,
And back with lightning answers—"Here am I."
To-day, o'er earth, the scattered nations all,
Obedient to Professor Morse's call,
With lightning—harnessed now—no longer free—
Flash back the answer—"Father, here are we!"

(Signed) T. H. LAMB,
District Sup't Pacific Division.

Second Dispatch.

SAN FRANCISCO, June 10.—The bid of $500 for the old U. S. Marine Hospital, will be rejected at Washington, when the building will be sold at auction. The Government will select a new site at once—probably on one of the islands in the bay.

Gen. Rosecrans is out in an appeal to citizens and capitalists to aid in the construction of the Southern California Coast Railroad, to connect with the Texas Pacific Railroad. He says the Central Pacific promises not to oppose or interfere in any way with the enterprise, though it will, to some extent, come in competition with theirs.

Boy Drowned near Stockton.

STOCKTON, June 10.—Yesterday evening a son of H. Hamilton, of San Joaquin, aged 14 years, was drowned in the slough. While out hunting his horse jumped down a ten foot embankment into the water with young Hamilton on his back.

NEVADA.

VIRGINIA, June 10.—The Sutro Tunnel is in 2,065 feet.

The rapid spread of the fire last night was owing to the quantity of oils and liquors in the buildings consumed.

OREGON.

The Methodists are to hold a camp-meeting near McMinnville this week.

William Ball of North Yamhill will build about fifty first class wagons this summer.

Henry Ankeny is building on his farm near Jefferson the largest barn in the State.

The Southern Methodists are holding a large campmeeting near Dixie, Polk county.

The colored population of Oregon according to the census of last year was 346, against 128 in 1860.

A man named Cosselman living near Roseburg was kicked in the stomach by a horse last week and so injured that he died next day.

The machinery of the steamer *Reliance*, which boat has been running for seven years on the upper Wallamet, will be taken out and put into the new boat now building at Canemah.

The *Statesman* says that since the escape of Hackney and Shultz, many reflections are made as to the conduct of the penitentiary and the efficiency of the present management.

From the Eugene *Journal*: We understand that Gen. E. L. Applegate has been offered the handsome sum of $6,000 to canvass the State of California during the coming campaign.

Bill Watkinds is quite furious over the escape of Shultz, and is reported to have said that hereafter he will either manage the penitentiary himself or Grover shall. Bill evidently believes with Napoleon that one poor General is better than two good ones.

The Eugene *Journal* states upon reliable authority that the Oregon Central Military Road Company have sold their land grant to Mr. R. M. Walker of San Francisco for the sum of $400,000. This is one of those misapplied grants which has enriched a few persons and done no good whatever to the country.

From the Dalles *Mountaineer*: The Columbia river at this point is about forty feet above low water mark; yet, yesterday it was as calm and smooth as when at low water. In the channel the current is running at the rate of about six miles an hour. A stranger would hardly believe that the spring and summer floods are now passing to the sea, judging from its quiet appearance and no signs of drift wood.

From the *Statesman*: On Wednesday last, the 7th inst., Maxwell Johnson, living about three miles southeast of Jefferson, met with a singular accident. He was plowing, and, as is usually the custom, had the reins fastened around his body the better to enable him to hold the plow; striking a stump the singletree broke, starting the horses, and dragging him over the plow handles fearfully lacerating and otherwise injuring him. At last accounts, although suffering intensely he was considered out of danger.

Salem now has its regular "Shultz items." These are from the *Statesman*: A bale of wool was stolen from the wharf warehouse night before last, and of course, Shultz took it and floated away on it. Thursday evening the till of the ferry boat was robbed of about five dollars, and, of course, Shultz had come down like a wolf upon the unsuspecting ferry boat. The milk ranch, east of town, report says, had the cream skimmed out of two purses, containing about $40, and everybody knows that Shultz stood in need of just about that sum just about that time, and the supposition is that in these cases Shultz was there or thereabouts, or else somebody was falling from grace just to help him keep up his distinguished reputation.

It is ascertained that Shultz did not leave the penitentiary on the day it was supposed he escaped, but while a lively search for him was going on he was safely hidden away in one of the area spaces of the new building. Hackney did escape, but before leaving he stowed Shultz away, piled boards over the space and rolled barrels and threw brick on the boards, and the authorities of the prison held a council within hearing of the concealed man, debating what course to pursue. It has transpired through another convict, who was in their confidence, that Shultz was to remain hidden there until the second night and then to meet Hackney outside and have his shackle released.

Somebody is writing up Columbia City in the *West Side*. This "city" is situated about two miles below St. Helens. We cull these items from the correspondence: "One man let it be known that he would sell some lots and sold over $1,000 worth in a few hours. A large wharf and warehouse are determined upon. Several families will soon locate there in addition to those already there. W. B. Morse & Co. have purchased a saw mill in South Salem and are now putting it up at Columbia City, and will be turning out lumber within five or six days. A commercial city is determined upon, and that purpose will be consummated." This, it strikes us, is rather unfair for Kalama, which spoke first to be *the* "commercial city."

An Olympia paper of the 8th says: A large part of the potatoes planted on bottom land have rotted in the ground, owing to the long continued rains. Grain on the prairies is growing strong and rank, but on the low lands gives slight evidence of a good crop. A few weeks of sunshine will make a difference.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

WASHINGTON CITY.

General News.

WASHINGTON, June 10.—The Commissioner of Internal Revenue has issued a circular in relation to the Fide metres now in use in distilleries which concludes as follows: It having been ascertained by experience that these metres, as a class, do not answer the purpose for which they were intended, their use is hereby discountenanced, and those attached to distilleries may be detached. The metres being the property of the distillers they are at liberty to dispose of them as they may deem proper.

The iron coast survey steamer now building at Washington, will sail for the Pacific coast about the first of September. Professors Agassiz and Hill of Cambridge, will make a voyage on the vessel for the purpose of taking deep sea soundings all the way along the route, and will make collections of specimens of natural history for the Cambridge University. The enterprise is highly thought of here as it is believed that it will add much information and value to important stores of the coast survey service.

The Secretary of the Treasury has written to the Secretary of State and Secretary of the Navy asking that Naval and diplomatic officers may be instructed to afford needful facilities to the exploring party.

EASTERN STATES.

The Morse Statue.

NEW YORK, June 10.—The unveiling of the statue to Prof. Morse, in the Central Park, took place this afternoon. All approaches to the vicinity of the statue were crowded. It is estimated that at least 50,000 persons were within twenty rods of the speaker's stand. Gov. Hoff man presided. The Governor delivered the introductory address. The event of the hour, the unveiling of the statue, was performed by Gov. Claflin of Massachusetts and Hon. W. Orton, who raised the national banner from it, disclosing the figure of the lightning controller. Music and shouts greeted the appearance, and when they had subsided the inaugural address was pronounced by Wm. Cullen Bryant.

BY STATE TELEGRAPH.

A Terrible Affray at Roseburg.

ROSEBURG, June 11.—There was a terrible affray this morning about 10 o'clock between Thomas and Henry Gale of the *Ensign*, and Wm. Thompson, editor of the *Plaindealer*. It occurred in front of the Postoffice. It is impossible yet to tell who shot first. The quarrel arose out of some newspaper article. Thompson is shot in three places, through the face and neck and through the shoulder and his side grazed by a bullet. Thomas Gale is shot through the breast. The wound is dangerous if not fatal. Henry Gale is beaten over the head with a revolver and badly hurt. The wounds of Thompson and Thomas Gale are dangerous. It is said by everyone that saw the affray that Thomas Gale shot first.

Democratic Anguish.

WAILING AND INDIGNATION OVER THE "NEW DEPARTURE," THE "RED ROCK" ORGANS OF OREGON REPUDIATE THE WHOLE THING.

"CREEPING INTO RADICAL LEATHER."

[From the Albany Democrat.]

We have all heard of the jackass donning the lion's skin, but who ever heard of the king of beasts squeezing himself into the ass' hide?—as witness the Ohio Democracy creeping into the Radical leather.

AN ELEGANT ILLUSTRATION.

"Will somebody please tell us where the Radical principles leave off and the Democratic begin in that Buckeye platform which we publish elsewhere? We have taken a pair of tongs and turned the thing upside down, rolled it over on its back, and flopped it down on its belly again, but can't discover any starting point from which to commence its dissection. We are afraid to cut into it for fear of severing an intestine canal and filling the air with a pestilence-breeding malaria.—*Ib.*

"A MOST DESPISABLE ACHIEVEMENT."

We publish elsewhere the Ohio State Democratic platform, which our readers will perceive is almost identical with the Vallandigham abortion to which we alluded last week. It seems, however, that the State Convention was by no means a unit in the adoption of the rotten mongrel concern, and that nearly half of that large assemblage uttered their protest and recorded their votes in opposition to it; but the noble minority were voted down, and Vallandigham achieved his victory—and it was a most despisable achievement, and one which cannot fail to result disastrously to the cause to which he has always professed devotion.—*Ib.*

"A CROSS BETWEEN TREACHERY AND IDIOCY."

[From the Eugene Guard.]

We have already, in two issues, called attention to that cross between treachery and idiocy, the Vallandigham Resolutions, yclept the "New Departure." We have condemned them in as plain language as we could. We at one time hoped the thing would die of its own innate rottenness, and feared that we had devoted too much space to such an apparent fraud. But lately we discover that several Democratic papers (so-called) seem to be quite happy over it, and take pride in their own disgrace, so we propose to condemn and execrate as long as these hybrids applaud and endorse. The argument used by these papers exhibit an amount of barefaced political dishonesty, reckless disregard of principle and entire absence of sense that is at once disgraceful and foolish. They endorse them because they are "they right policy" (vide *Herald* of 3d inst.); the recognize the validity of the three last amendments to the Constitution, yet denounce the manner in which they were thrust into the Constitution. (See same authority.) Shades of courage and honesty. The Democratic party endorsing negro suffrage, "civil rights," "negro quality, politically and socially!" We would not be more surprised to hear the devil preaching morality—a beggar exhorting men to penuriousness—a Republican claiming this as a white man's Government—a rat encouraging the manufacture and sale of strychnine or a Web-foot farmer sowing fern seed on his place and introducing scab among his sheep. This truly the right policy! Again the *Herald* says it recognizes the validity of the amendments, yet denounces the way that they became such. Pink of modesty and pattern of mildness—acknowledge the title of the thief to your property, yet with holy horror denounce the manner in which he obtained it! Some papers endorse the resolutions because upon such a platform we may carry weak-kneed Republican votes, and might by making a few more concessions induce Chase, Sumner, Groesbeck, or some of that ilk, to accept a nomination for President in 1872 on the Democratic ticket. Our concessions and want of a sufficient amount of moral vertibra contributed largely to our defeat in '64 and '68; shall we, like fools, fall into the same trap that has twice caught us, or shall we still fight under the old banner, and rally to the old battle cry? Admit, for the sake of argument, that the adoption of this bastard of Vallandigham's would insure success, would secure the election of any man that we have named, what would the victory be worth to the Democracy? In adopting the monstrous infamy we have nothing to win and everything to lose. As honest men, as Democrats, because we believe the principles of that party as enunciated by its immortal founders, Jefferson and Madison, we cannot endorse this thing. As a strategic movement to secure election and disregard the way by which we obtained it, we think it a failure. We are confident that the Democracy of Oregon will never consent to tinker up a platform to accommodate Republicans who, perhaps, may magnanimously consent to become candidates for us. If we will let us have a victory of which we may feel proud; if we are defeated, let us at least be "glorious in the dust." Success would be disaster, and defeat would be death.

THE TERRITORIES.

Wells, Fargo & Co. shipped from Owyhee during the month of May $62,155 in bullion.

Another vessel, a schooner of 109 tons, is on the stocks at Port Madison, Puget Sound.

During May the amount of land disposed of at the Vancouver office was 4,804 acres, more than half of which was homesteads.

Two thousand persons from different points on the Sound visited Port Madison a few days ago to witness the launch of the ship *Wildwood*.

A boring apparatus, to be used in making an artesian well, has been ordered at Boise City. The proprietor, Mr. Pickel, intends to go down 1,000 feet.

The Vancouver *Register* has been purchased by Mr. Stephen P. McDonald, the "Typo" who has occasionally heretofore improved that paper with his editorial talent. As he now has sole charge of the paper patrons may expect a great and permanent improvement in it.

A Water Supply

How to secure an adequate supply of water at reasonable rates is a problem of absorbing interest just now to the people of Portland They are now taxed exorbitantly for the water they use, and the supply is not always abundant, nor is it, especially in summer, as good as it should be This city must prepare to construct water works on its own account and manage them for the benefit of the people It is not too soon to undertake this important project Now is the very time to begin it Various plans may be suggested The water of the Clackamas river is perhaps the purest obtainable, but to carry it here would be very expensive so expensive perhaps, as to be beyond the means of the city for some time yet If we are to continue to use Wallamet river water the city might obtain a larger supply and obtain it in such a way that the water would be actually better than that now furnished and moreover it might be supplied at much more reasonable rates If pure Wallamet water is obtained free from the filth and sewage of the city and from the impurities of badly kept reservoirs, we shall actually have better water than that furnished at Philadelphia from the Schuylkill river, or to most cities from the rivers or lakes adjacent to them Few Eastern rivers are so pure as the Wallamet, when we get above the tides and eddies which carry up for some little distance the sewage of this town

The "Holly Water Works," so called, a system of supplying water to cities and which may properly be made a subject of [illegible] on by our city authorities at this [illegible] These works are in use at Lockport [illegible] Ogdensburg, Binghamton and other [illegible] in New York, at Peoria, Ill, Kalamazoo Mich and many other places Where introduced they have proven successful [illegible] answer the purpose both of fire protection and water supply No reservoirs are needed Powerful rotary pumps [illegible] by turbine water wheels or, where there is no water power available, by steam engines, force a supply of water through great mains under a pressure sufficiently powerful to deliver at any height in almost any city [illegible] water is governed by regulators which control the pressure in the mains [illegible] can be adjusted at a signal by the engineer and a greater or less quantity of water furnished as may be desired At Peoria, where these works are in operation, an example of what they can do is afforded [illegible] Peoria is a city of 30 000 people Machinery was put in to furnish 3,500,000 gallons per day for domestic use, and the company also agreed to throw from fire hydrants eight 1 inch streams 100 feet high at the same time and at one and three-quarter miles distant from the pumps. They engaged to throw three 1-inch streams at a point on the bluffs above the city two miles distant at an altitude of 209 feet above the pumps from hydrants, over any buildings situated in the [illegible] The contract was successfully performed at a cost to the city of about $200,000

The city of Binghamton N Y, is situated on the banks of the Susquehanna A supply was drawn from several great wells a hundred feet or more from the river, these wells are each about thirty feet in diameter and are fed by the river But the water passing through the earth and gravel intervening is well filtered and rendered pure and [illegible] From these wells which of course cannot be pumped dry a city of 15 000 people is abundantly supplied A similar plan might be adopted here Wells could be dug on the bank of the Wallamet some distance above the city which would give a supply of good water As the water would be driven through pipes which would in no place be above ground and as the heat of insect-breeding reservoirs would be avoided, the water would be pure and cool A system of water works like this is within the means of the city The receipts for water would pay well on the investment necessary to construct the works, with water at lower rates than it is now furnished at and better water would be [illegible] These suggestions are submitted for consideration with others that may be proposed since the time is at hand when the city must investigate and act.

Municipal Candidates.

At the Republican Ward Meetings on Saturday much interest was manifested and a very fair vote was polled Unexceptionably good men were chosen for the City Convention to be held on Saturday next A Convention composed of such material will assuredly present a ticket worthy of general support

The candidates nominated for seats in the Common Council are all good and well known [illegible] M. Burton, the candidate in the First Ward, it is unnecessary to say one word he is as well known as any man in the city, enterprising, vigilant in public as in private business and never can be controlled or approached by any ring, or set of [illegible]. Mr Caywood, the candidate in the Second Ward, is a well known and useful citizen with a character above reproach or suspicion Messrs Hill and [illegible] candidates in the Third Ward, are worthy men The former as a member of the Council for the past year has been unremitting in his attention to the interests of the people in his Ward, and has contributed largely to the general improvement of the city The latter is a carpenter and builder and stands well in general estimation None of these men can be manipulated by any body for any job and to secure such men is the great object of desire in this election The interests of the city and of citizens will be safe in the hands of the men to whom the Republican party propose to entrust them.

It strikes us that the management of the Penitentiary under the present State Administration is not greatly superior to the management under the last one though the last has been the subject of much Democratic [illegible] The truth is that during Gov Gibbs term and under the management of Mr Shaw the Penitentiary was better and more economically kept than under any succeeding administration Whenever Gov Grover comes up to Gov Gibbs standard he will have something to boast of

It is a sorrowful thing to record the terrible shooting affair reported at Roseburg We have looked through Saturday's issue of both the papers published at that place, and see nothing that would seem to warrant or provoke so bloody an encounter between the editors A mere bandying of words about some trifling matter, and yet how dreadful the consequences! Are they wise men who do thus?

A Perfect Demonstration

The *Herald* vehemently asserts that its party has attempted no "new departure" Here is its logic

> The Ohio platform denounces the extraordinary means by which the last three amendments were forced into the Constitution, and yet recognizes them as "accomplished facts" The Oregon platform denounced the means by which these amendments were foisted into the Constitution, and recognized them as accomplished facts by adopting a resolution in favor of rescinding them

The mind that survives the birth of such prodigious logic will yet be able in all probability to prove like Hudibras, by sheer force of argument, that a man's no horse to to demonstrate that the moon is *not* made of green cheese, no matter what common report may be, and to explode all other fallacies of like deep seated character

Nevertheless let us look a little at the above demonstration It is said there is no departure,' and that the Oregon and Ohio platforms are alike The former recognizes the existence of the amendments, but declares they must be rescinded, and pledges the Democratic party to rescind them The latter also recognizes the existence of the amendments but says they are *not* to be rescinded, and pledges the Democratic party never to disturb them And right here is the 'new departure' Does the *Herald* see it? Its own logic has perfectly demonstrated where the 'new departure' is and what it is Every other Democratic paper in the State comprehends it Is it creditable for the big "State organ" to be the most obtuse of all of them?

Cholera Again on its March

Mail advices indicate that there is every reason to fear that the late terrible bloodshed in Europe will be followed by a more dread destroyer than war—the cholera The enervating effects of great wars have frequently prepared nations to receive pestilence, and cholera it is now said, is steadily approaching France by regular degrees along accustomed routes towards the exhausted cities and hamlets of France

At last advices it had crossed the intervening country from the Ganges to the Black Sea had traveled along the Volga and reached St. Petersburg, while another column had crossed the Mediterranean, and has landed in Italy The column in St Petersburg and that in Italy are moving slowly but surely toward the scene of the great conflicts, and that France will be visited by the cholera this summer there is scarcely a doubt. Not only is the disease approaching it slowly but surely, but there prevails among the French people a class of diseases which have always been observed to be the forerunners of cholera, and the summer may witness even more awful destruction of life in Paris, than has yet stained her streets

Atmospheric Gas.

This is the name given to a gas made by a new mode from the lighter fluids of petroleum. The Agent for the Company which owns the right for the Pacific States and Territories presented a letter of introduction at our desk on Saturday, together with testimonials from persons in San Francisco who have used it for a considerable time, among which testimonials is one from Thomas Bell, (of Faulkner, Bell & Co), President of the San Francisco gas works, also one bearing the signatures of all the leading Fire Insurance Companies doing business in San Francisco, certifying as to its safety, economy, cleanliness and simplicity of management

A cheap, safe and convenient method of lighting buildings is certainly very much needed, and in no place more than in Portland We trust this method may prove so satisfactory to the people of Oregon and Washington Territory as to warrant its general introduction A machine is expected by the next steamer, when our citizens will have an opportunity of judging of its operations and the results thereof for themselves.

A commentator who is indorsed by the great Democratic organ of Ohio, the Cincinnati *Enquirer*, as "one of the best writers, profoundest thinkers and truest Democrats of the State," overhauls the "new departure" resolutions item by item and decides that as to the past and present of the Democratic party they are a humiliating confession and a shameful dodge, and that as to the future they contain nothing but some of the dead issues they had just pronounced buried, some Republican old clothes and a little unmeaning buncombe He concludes that "the Democracy have committed a serious error" He urges also that they "should reassemble and reconsider this uncalled for and most unfortunate movement"

Last year the Presbyterian General Assembly resolved to raise a Nine Million Memorial Fund in honor of the reunion of the two wings of Presbyterian faith The fund committee recently reported to the Assembly convened in Chicago that the sum of $7,706,000 has been collected This unexpected announcement occasioned great cheering in the Assembly, which at once appropriated $5 000,000 for the erection and repair of churches, $1,405,548 for home institutions of learning $93,509 for foreign institutions and $148 660 for hospitals

GERMANY AND FRANCE.

PRINCE BISMARCK ON THE PEACE OF FRANKFORT

Prince Bismarck made in the German Parliament, on May 12th, the statement following

On the conclusion of the preliminaries of peace, hopes were entertained that the labors of the Conference which assembled to settle the final terms of the treaty would be terminated in a month or six weeks This expectation was founded on the belief that the French Government would enjoy undisputed authority in France but this hope was not realized A longer delay in the conclusion of a definite peace would have given rise to a fear as to whether the French Government would remain in a position to fulfill its obligations As regards the cession of territory, the object at stake was already in our hands, and there could be no doubt of the arrangements in this respect being carried out The apprehensions that were entertained concerned the question whether the Government would be inclined and able to accomplish the conditions relating to the war contributions Serious anxiety upon this point caused me to try the effect of a personal interview with the French Ministers If we had not come to an agreement, the German Army would have occupied Paris either by an arrangement with the Commune or by force and thereupon we should have required the French Government to withdraw its troops behind the Loire, and then resume negotiations. I only went to Frankfort with the intention of obtaining the settlement of a few pending questions—namely, the payment of the war contributions, the shortening of the delays and the strengthening of the guarantee But as it became manifest that a prospect existed of finally concluding peace, I considered that that result would be a gain for both countries as Germany would thereby be able to lessen her military burden and France would achieve consolidation The French Government is in the best possible position to meet the views of the people of France for a restoration of peace Any other Government that might attempt to take its place would be suspected of not wishing to make peace equally secure It is true there will be some supplementary provisions necessary respecting the carrying out of the treaty still a definite peace is now achieved The terms for the payment of the war indemnity have been shortened, the first half milliard will be delivered within the thirty days following the occupation of Paris by the Versailles Army With regard to the mode of payment, it has been settled that only specie, or notes of safe banks either English, Dutch, Prussian or Belgian, will be accepted or first class bills The second payment amounting to 1 000 000 000, is to be made in the course of this year, namely by the end of December Not till then are we bound to evacuate the forts before Paris The fourth half milliard has to be paid by the 1st of May, next year With reference to the payment of the last three milliards the stipulations of the preliminaries of the treaty of peace will be adhered to and the payments will be concluded by the 1st of March 1874 The French Government hopes to be able to satisfy our requirements Difficulties arose in connection with the question of our commercial relations The French Government wishes to abrogate the treaty of commerce and appears to expect to obtain by that proceeding an increase of customs receipts I contented myself with obtaining for us the rights accorded to the most favored nation By the most favored nations we understand England, Belgium the Netherlands Switzerland Austria and Russia With regard to the frontier question it was decided not to understand the Rayon of Belfort in its technical significance, but to extend it by four or five kilometres It appeared desirable to acquire some German Communes near Thionville, together with Rellinger This the French Government declared itself unable to grant I therefore proposed to leave the question of ratification to the National Assembly and I offered, in lieu of that territory, a further cession of territory round Belfort The remaining conditions of the treaty will be seen from the document itself which will be published very shortly We have acquired for a certain sum of money the portion of railway in Alsace and Lorraine which belongs to the Eastern of France Company A delay of ten days namely till the 20th of May has been agreed upon for the ratification of the treaty by the Emperor of Germany and the French National Assembly Prince Bismarck concluded as follows "I believe we have obtained from France all that we could reasonably expect We have rendered our frontier safe and we have insured the payment of the war indemnity as far as is humanly possible More extensive demands would have entailed great sacrifices I have every confidence that the French Government intends to carry out the provisions of the treaty and that it will have the power so to do The belief that it will not be possible to raise the large amount of the war indemnity is not shared by the French Minister of Finance I entertain the hope that the peace which has been concluded will prove lasting and full of benefit, and that we shall not for a long time have to make use of the guarantees we have retained to secure ourselves against renewed aggression"

BOOK NOTICES

HISTORY OF THE FRANCO GERMAN WAR —Mrs Rosa Martin, the veteran female book agent, has just received the agency for a most valuable and interesting book—"History of the War between Germany and France"—a work of 749 pages and over 100 engravings and maps, by James D McCabe, author of "Paris by Sunlight and Gas light," "Life of Napoleon III," and several other books of history and biography This book contains biographical sketches of all the principal personages engaged in the war both of France and Germany, with portraits of Emperor William, Bismarck Napoleon, and most of the Princes and Generals who figured conspicuously in the war, in the subsequent diplomatic relations of the several countries concerned or in the late French Republic, etc The portraits are a better feature in this book than in most similar works because they were each taken from genuine large photographs of the originals The author traces the causes of the war through the various phases of national intercourse for several generations gives an apparently truthful and strictly impartial account of the war from the breaking out of hostilities in July 1870, to the peace concluded before the gates of Paris accounts for the success of the Germans and the failure of the French armies, illustrating this part of his subject with maps and plans of the several Generals, showing clearly the defects in French management together with the fortuitous circumstances which operate in favor of the Germans From the close of the Franco German war he proceeds with an account of the subsequent events in Paris—the Republic the Revolution, etc McCabe is not only a fine writer, but he has brought to this work the aid of a military education and the observations of an experienced traveler He is familiar with the cities, and almost the very battle grounds about and on which the scenes of the war were enacted Mrs Martin will furnish the book in English or German in extra fine morocco cloth binding for $4 50, or in fine leather (library style) English or German for $5 Orders may be left at her rooms, No 109 Front street, up stairs, from 6 to 8 o'clock P. M At earlier hours she will be out canvassing She is sole agent for Portland and East Portland and the work can only be obtained of her

TWO VALUABLE BOOKS —A L Williams a deaf mute has commenced to canvass this city and vicinity, for "Republicanism in America" by R Guy McClellan The book is complete in one large volume, beautifully illustrated with steel engravings of the leading men of the United States, and contains gems of oratory and speeches of men of all political parties from the Revolutionary period to the present time No book yet published in America contains so valuable a condensation of American history as does this elegant work, endorsed by the press and the leading men of the country as a standard authority *No library is complete without it* It is not sold in any bookstore in the United States, and can be had only from Mr Williams, the agent for this section Mr Williams is also canvassing the city for another book, one of the most valuable that has lately been offered to the public It is entitled "One Hundred Years Progress of the United States," showing the various channels of industry through which the people of the United States have arisen from a British colony to a first class nation, in power and wealth It describes the vast increase of population, and the improvements in agriculture commerce and manufactures, and is literally filled with interesting and valuable information. The work contains about 570 large royal octavo double column pages, including engravings, well printed on good paper, with 278 illustrations, 265 from electrotype, ten steel plate and two chromos It is substantially bound and will be delivered to subscribers at $5 50, payable on delivery It is a book that will make a valuable addition to every library,

Let Common Sense Decide

What is the rational procedure in cases of general debility and nervous prostration? Does not reason tell us that judicious stimulation is required? To resort to violent purgation in such a case is as absurd as it would be to bleed a starving man Yet it is done every day Yes this stupid and unphilosophical practice is continued in the teeth of the great fact that physical weakness, with all the nervous disturbances that accompany it is more certainly and rapidly relieved by Hostetter s Stomach Bitters than by any other medicine at present known It is true that general debility is often attended with torpidity or irregularity of the bowels and that this symptom must not be overlooked But while the discharge of the waste matter of the system is expedited or regulated, its vigor must be recruited The Bitters do both They combine aperient and antibilious properties, with extraordinary tonic power Even while removing obstructions from the bowels they tone and invigorate those organs Through the stomach up which the great vegetable specific acts directly it gives a healthy and permanent impetus to every enfeebled function Digestion is facilitated the faltering circulation regulated the blood relief reed with a new accession of the alimentary principles, the nerves braced and all the dormant powers of the system roused into healthy action not spasmodically as would be the case if a mere stimulant were administered but for a continuance It is in this way that such extraordinary changes are wrought in the condition of the feeble emaciated and nervous invalids by the use of this wonderful corrective alterative and tonic Let common sense decide between such a preparation and a prostrating cathartic supplemented by poisonous astringent like strychnine or quinia

Cassell's Magazine

The Democrats and Their Principles

[From the New York Tribune, May 27th]

The Democratic Party is building marginally no air in the anticipation of a return to power in the elections of 1872 a remarkable organization. The confed rate the prize fighters colors, the slouch, with here and there some representative of a foreign banker dis g of his employer, make up Gentleman George of Cincinnati Mike McCoole of St Louis, Jubal Early of Virginia Admiral Semmes, of Alabama Brick Pomeroy Jim Fisk, Judge Barnard Belmont Barlow, Ingalls, and a majority of the Tammany ring are representative of the party. In the matter of politics, its composition is not less mosaic. The two most conspicuous members of the party in dall, the Pennsylvania pro tectionists rooks the New York free traders Whigs Know Nothings Andy Johnson abolitionists, and Confederate soldiers make up the remainder. In the Senate their numbers are very few, and yet, so prominent have they been selected that a majority of that few are the champions of a grinding protective tariff, the special defenders of the coal ir n and salt monopolies

The Democratic Party present nothing to commend themselves to public favor that they did not present in 1868 They have had to proposed to resolved that it should be stopped in substance that they declared be renewed to overthrow the fourth, of Congress In 1871 nothing to offer save that the abolished slavery and the civil and political rights of all citizens are failures and hence the Thirteenth, Fourteenth and Fifteenth Amendments must be treated as null and void. They have no policy with regard to taxation finance In short, the Democratic Party has neither principles nor leaders, and it cannot achieve success, except through superior on the part of the Republicans

The Democratic party contains within its organization almost every element which is dangerous to public liberty and to national safety. How it would govern the nation is shown by the government of the State and city of New York—the only part of the country in which it has unquestioned and supreme power. The government of New York is a specimen of the government which the Democratic Party proposes to give to the nation It is a government of plunder—to rob the general to feed and clothe an army of cut-throats and bullies who other labor nor produce but are maintained at the public expense. We justly complain in this country of the expense of keeping an army to a standing army of r thans ballot-stuffers thieves kept upon liberal pay by the Democratic Party in the city of New York per head to the one which would to maintain a regular army of the number of men At present the government is confined to the but it is not a plug ugly in New York is any other part of the country nor opposed to decent government, anxiously waiting for the hour when of the United States shall be transferred to the sachems of Tammany Hall. of the nation be distributed the retainers of that or It is a significant fact that the first in this country of a dishonest, profligate hireling Judiciary was created by the Democratic Party in the only portion of this country subject to its rule

There are men attached to the Republican Party, and who be leaders in it, who are of no profit to the party nor any advantage to But the vicious elements which are united in the Democratic Party are attracted by the common hostility to all law and government, and by the desire to overthrow every barrier which stands between power, order security of life and property and the absolute reign of the lawless mob There is no sense of restraint in that party No man is quite secure as to his personal or political thing that he may say or do can injure or lessen his standing Political principles are not required. He can vote any way he pleases He can vote to repudiate the debt principal and interest, like Mungen, or he can vote to make greenbacks payable in gold like He can vote to repeal the tax on iron like to make it 100 per cent like Randall He can spout for protection or free trade He can vote for tax or for revenue or vote repeal all revenue He can vote to compel the miners to work for starvation wages railroad companies may have thirty per cent dividends, or can incite one class of laborers to cut the throats of another class Upon no question of general policy upon any of its details is any Democrat expected to have any fixed opinion except perhaps that no "nigger" shall vote It is a of outs, clamoring to get possession of the Government, that it may carry out, on a grander scale, the New York Government of robbery and spoliation

In the coming contest of 1872 the Democratic Party have nothing new to present. In 1868 aided by the Confederate recruits and by the Seymourism and Blairism, it had some hope of success, but, in 1872 they have nothing but the old issues of the war to fight over again, upon which they have been defeated, outside of New York city, annually since 1860 They might have made a respectable showing upon the issue of taxation, but upon that the party seems as ignorant as and when it votes at all, it the under command of Kelly and Randall will have after the fight once more with other battle cry than "down with the nigger and up with Boss Tweed," and of with as disastrous a defeat as of 1868, unless it shall be out the next eighteen months by the Republican Party, which we conceive to be possible

Vallandigham's Democracy

Democrat copies the Vallandigham ons and comments as follows ons concerning the intent, and constitutionality of the amend Constitution should please the they certainly satisfy the Republ possible that solitude salivates lose their firmness? the Democratic party when it to do nothing but indorse the mis tyranny usurpations and corruptions of the Republicans? Why not add the following the day on side-wheel improvement, and strengthen the Vallandigham resolutions, harmony" to the element in power? That the arrest of C L Vallandigham the battering in of his doors, the branding him a traitor and escorting him "out of country," was right, proper, patriotic, and in accordance with the bayonet power of the Constitution

Resolved, That all the Republican party has done, and all it may do, has been and will be right

Resolved, That where there is no difference between Democracy and Republicanism one party or the other should disband at once

Resolved, That we put on the skin of a jackass and hew wood and draw water for our masters

Resolved, That the Democratic party disband, and its members join in a carpet bag crusade against the long outraged and submissive people of the South.

The above resolutions are offered for the suggestion of the Democrats of Dayton and Cincinnati, as a recipe to assist in making political ge gos easy The chairman of the committee on resolutions should now have the floor to say—

"*Put me in my little bed*"

Awful Explosion.

Near Titusville, Pennsylvania, a few days ago, 400 pounds of nitro-glycerine was blown up creating tremendous havoc It was being conveyed in a wagon, and the driver, horse and wagon were totally annihilated A circular excavation five feet deep and twelve in diameter, was made in the road, and fences and trees for a considerable distance were shattered into fragments A barn forty rods off was blown down and the whole neighborhood was a complete wreck A local paper gives the following curious particulars.

The driver's face was found almost entire without the skull One eye was blown out, and the other was open, glaring, and transfixed in death. The mouth and nose and mustache were perfectly natural, and apparently he had not time even to put on an expression of alarm All the remaining portions of the body were scattered so widely and torn into such diminutive fragments that it was difficult to tell which belonged to the man and which to the horse At the time our reporter reached the spot, the supposed human remains were lying in a basket A telegraph pole on the roadside bore strong evidence of instantaneous demolition, leaving the wire intact overhead The appearance of what was once the horse and wagon, beggars all description. The forequarter of the animal was lying in the roadway, the shoes of the fore feet gone, and the entrails and tender parts scattered, while a broken shaft and small pieces of steel and iron were all that could be collected of the wagon The fragments of steel were, for the most part twisted into peculiar shapes, with ragged ends

POLITICAL NOTES.

The Chicago *Times*, the great Democratic paper of Illinois, publishes the "new departure" platform and the ticket nominated in Ohio upon under the head of "Obituary" Expression enough.

The Albany (Ga) *News* manifests its affection for the new principles adopted by its party in this manner: "The gallant Phil Sheridan tried to get home in time to run for Governor on the Ohio Democratic Platform, but failed to make the connection But he can start with the next 'New Departure.'"

The *Pagus Guard* says, "As some of our readers have made inquiry as to the definition of the term, 'New Departure,' of which Vallandigham & Co, are the patentees, for a complete and satisfactory definition, according to our diction ary, we refer them to Matthew 25 chap and 14 verse," which reads "Depart from me ye cursed into everlasting fire," etc.

The Columbus (Ga) *Sun*, says the Savannah *Republican*, is correct in its assertion that it is the want of backbone among the Democracy of the North that is disheartening the Southern wing of the party It condemns "the servile talk of certain Northern Democratic presses and politicians," and says "If we wish to be free, we must not lean on others, but strike the first blow."

The Cincinnati *Commercial* (Dem.) says "A party must know when to abdicate It may easily find the proper time to do so by self examination, whether it has a great man around whom to rally Whenever its efforts to bring out its real statesmen fail, and fail repeatedly, as was the case in 1844, 1848, 1852 and 1856, in the Democratic party, it ought to admonish it that the career that destroys parties is at work upon it To go through the motions of party, when it has no live big mind to give to it tone, is the absurdest thing men can be guilty of. The Democratic party is in that condition. It died because it was false to its master minds, and the dearth small is now upon it, for it has to manufacture great men out of small material A party thus situated should dissolve

The McFarland Richardson case is soon to be brought before the public again McFarland's attorney moved, in the Morgan county (Ind) court, a short time since, that the case be dismissed, as he had information that his client was an inmate of an insane asylum, but on May 23, a notice was filed in the Supreme Court of an appeal to that tribunal The attorneys say it is their intention to bring the case to trial at the earliest possible moment

A smart boy in one of the public schools, having been required to write a composition on some part of the human body, expanded as follows "A throat is convenient to have, especially to roosters and ministers The former eats corn and crows with it The latter preaches through his n and then ties it up

An Australian Judge fined a Mr Jones £100 and sent him to prison for two years, for "blasphemy," in speaking of Moses as a "robber, murderer, and cruel old wretch "
